

## ADMINISTRATOR'S STATEMENT

Industrial M.D. Trading S.R.L. having as activity object the import and sale of pipes, fittings and accessories, and storage and handling of fittings and their accessories, has aimed ever since incorporation to meet customer requirements to the best of its abilities, by ensuring high quality service and by offering products that provide technically and economically optimal solutions, while taking special care of the environmental and social impact upon the people who come into direct or indirect contact with the results of our activity.

The main objective of S.C. Industrial M.D. Trading S.R.L. is to systematically provide quality products on the Romanian market, to provide customers with state of the art materials with which to carry out sustainable works and offer the best quality/price ratio. For these activities the organization has identified the risks, the nature of environmental issues and the importance of their proper evaluation by setting up an integrated system of quality, environment and occupational health and safety.

This system has been designed to ensure that all persons pertaining to the organisation are able to use it.

In all its actions, the organisation takes into account the methods and resources needed to prevent injuries, occupational diseases and environmental impact regardless of the pressures from partners and customers.

Environmental legal obligations and OH&S are a permanent duty, and the additional requirements applied and identified by the organization are the basis for ongoing improvement.

All the objectives are precise targets set for each and every activity / process and are analysed and designed according to the capability of each person involved and made accountable for their fulfilment.

We work with information documented and verified by active records demonstrating an ongoing care to prevent pollution and adverse effects on human health.

The information generated by the operation of the organization is communicated openly and promptly to all interested parties by making available all system elements (including this policy) in order to generate correct and consistent information.

Periodically we analyse if what we have proposed can be achieved and whether the information presented is relevant to our processes.

Industrial M.D. Trading S.R.L. has the following basic principles of activity:

- The identification of customer requirements and the adoption of all the necessary measures to meet them.
- The careful selection and evaluation of suppliers and partners.
- The strict control of all processes, including outsourced processes, and storage and delivery conditions.
- The extension of our product range by introducing new and improved products
- The promotion of internal communication and team spirit at all levels.

Industrial M.D. Trading S.R.L., through its top management, commits:

- to satisfy customer requirements in terms of service and material quality used in the execution of works;
- to maintain a continuous improvement process of the integrated system performance, as well as to prevent injuries and occupational diseases and pollution;
- to comply with applicable legal and other obligations to which the organization subscribes according to own risks and identified environmental issues.

***We know that our success is based on a very close cooperation with everyone involved, focusing on human health in a clean environment.***
